| Was the assignment complete, with minimal errors, correct output, and good style? | Excellent | Pretty good | About average | Could be improved | Not this time | What supports this? I think the assignment is complete with minimal errors and correct output and good style. I follow all the steps that the lecture taught and double check everything |

| How much EXTRA effort did you put into the assignment? | A lot of extra effort | | Some extra effort | | Not this time | What supports this? I did this in CMPM35 so it is not new for me. It is not too challenging work for me so I didn't put that much effort in this work. |

| Summary of your evaluation/efforts: I feel pretty good about this lab. I spend some time with my partner and I feel pretty good about it. Lab2 is not too challenging work for me since I did a similar work in CMPM 35. But I do enjoy the process of grasping this memory back since I kinda forget how to do it :(. The effort I put in this work is not that much, but I finished this assignment a few days before the due date so that I could put more effort on the next assignment. The thing I enjoy the most about this assignment is working with my partner, I like working with someone rather than working on my own. We haven't really talked much yet but I feel like my partner is great so far . | | | | | | |
